Copy of letter No I Dis A6.441/44-45, dated the 5th November 1944 from the Deputy Commissioner, Chitaldrug District, to the Director of Public Health in Mysore, Bangalore.

Subject - Water supply and town improvement grants for 1944-45

Adverting to your letter No.C.141-149 dated the 14th August 1944 on the above subject, I have the honour to forward herewith two statements one showing the grants required for town improvement works and another for water supply improvement works

Another statement showing the names of works for which grants have already been sanctioned by Government during the current years is also enclosed as desired.

In this connection I wish to state that the roads in Chitaldrug Town are going from bad to worse and that the drainage is also unsatisfactory The full grant recommended for this Municipality may kindly be sanctioned

In Turuvanur Village of Chitaldrug Taluk, the population is 5500 and proposals for converting the same into a minor Municipality are under correspondence. Very keen difficulty is felt for water in this village and the Minister for Local Self Government and Public Health was also pleased to see the difficulty felt by the villagers for water An estimate for Rs 46,230/- has been prepared by the Sanitary Department and it is proposed to take up this work in two stages The first stage will cost Rs 24,380/-. The Village Panchayet is not in a position to meet any part of this cost. I request that the sanction of Government may be obtained for meeting the entire cost of the first stage by a grant from Government as a very special case, though this is not a Municipality and thus relieve the sufferings of the people of this village, which has a big population.

For Secretary to Government,
Law Department.
